Guidelines for awarding fee reduction/scholarship

- (1) An EBS fee reduction or scholarship serves to provide financial support for university-related education and further education. The purpose of granting a fee reduction or scholarship is intended to give selected students the opportunity to study at EBS. As a rule, applications for tuition fee reduction or a scholarship are to be submitted prior to starting studies. If a fee reduction or scholarship is granted, it includes a percentage reduction of the tuition fees in accordance with the applicable study regulations for the duration of the enrolment at EBS, but at most until the end of the standard period of study of the respective degree programme. Payment in the form of money is excluded.
- (2) There is no legal entitlement to the granting of a fee reduction or scholarship.
- (3) The EBS committee responsible for awarding fee reductions or scholarships will review the complete application for a fee reduction or scholarship submitted by applicants and make its decision on the basis of the multiple-eye principle.
- (4) Only one fee reduction or scholarship can be granted at a time. A combination of two or more fee reductions or a scholarship is excluded.
- (5) The student who is granted a fee reduction or a scholarship is subject to the obligation to cooperate and to immediately report all circumstances relevant to the granting of the fee reduction or scholarship.
- (6) If the scholarship holder cancels the degree course, the funding received must be reimbursed to EBS. If the student terminates the study contract without good cause, or if the university terminates the study contract for good cause, the scholarship or fee reduction payments granted up to the time of resulting deregistration are due for repayment at that time. Should this mean unreasonable hardship for the student for personal or financial reasons, the university will, at its reasonable discretion, determine a repayment plan for the scholarship or fee reductions granted, which shall take into account the student's personal and financial capacity as well as the reasons for de-registration, especially according to that sphere they come from, and shall, in particular, include a partial waiver for personal hardship cases or an instalment payment corresponding to the duration of studies completed.
- (7) In the case of pregnancy and childbirth, a fee reduction or scholarship will continue to be granted analogous to the protection periods under the Maternity Protection Act.
- (8) In the event of a leave of absence, the decision on the scholarship or fee reduction shall remain in force, but the granting is suspended for the period of leave of absence.
- (9) The granting of a fee reduction of scholarship may also be withdrawn in whole or in part, even retroactively, if it was based on false facts or inaccurate information.
- (10) The approval of a fee reduction or scholarship will be revoked at the end of the month in which the student terminates or interrupts his or her studies, leaves EBS or changes the degree course, or if the eligibility requirements no longer apply, for whatever reason.

(11) If a student has received benefits without legal grounds, EBS is entitled to repayment. The repayment claim exists irrespective of whether the funding amount has already been used or expended in whole or in part.

(12) The applicant agrees to the collection, storage and processing of the required personal data for the purpose of selection and administration of the respective fee reduction or scholarship. This may include data on the intended degree, previous education, subject, number of semesters, funding already received, award of BAföG grants and data that is absolutely necessary for assessing suitability as part of the selection decision.

(13) In all other respects, the statutory data protection provisions shall apply.
